Configure AIQ Jira Cloud Integration

The Integration between Appvance IQ and Jira allows you to configure what project to use, what issue type to automatically create and how to add tickets automatically when a scenario fails.

Prerequisites

- You must have a valid Atlassian Jira account.
- Admin/Owner permissions in AIQ are required to configure the integration.

Configuration Process

The following sections detail configuring the AIQ integration with Jira Cloud.

- Configuring Jira Global Options
- Viewing Jira Tickets Created by the Integration
- Viewing Jira Error Messages
- Scenario Editor Jira Settings
- AIQ Jira Integration Behavior
