Android - Bypass Proxy Exceptions

Some services running in the background can affect the recording. To prevent this, filter them in Android by adding the following domains to the bypass proxy list (and very likely some more domains specific to your environment):

*.google.com, *.googleapis.com, *.localytics.com, *.microsoft.com, *.pipe.aria.microsoft.com, *.google-analytics.com, *.accuweather.com, *.uservoice.com, *.flurry.com, *.weather.com, *.crwdcntrl.net, *.w-x.co, *.acompli.net, *.g.doubleclick.net, *.adnxs.com, *.services.mozilla.com, *.gstatic.com
