Atlassian Jira

Appvance IQ supports integration with Jira Cloud and Jira hosted on a server. The following sections detail how to set up each type of integration and how to configure Appvance IQ Global Options.

- AIQ Jira Integration (Jira Cloud)
- AIQ Jira Integration (Jira Server)

Last updated: October 15, 2026

Recommended learning path

Start with a recorded DS3 script, inspect its accessors and waits, then parameterize data before adding it to a Scenario. Run a small validation execution first; only after the script is stable should you configure distributed users, reports, or performance workloads.
