Calling Native Message Box

You should be careful with these actions, as they will stop browser execution until the user closes the message box.

These should not be used for any CI Process.

alert

alert(String:message)

Will trigger a native alert

confirm

confirm(String:message)

Will trigger a native confirm

prompt

prompt(String:prompt,String:defualtValue);

Will trigger a native prompt

print

Will trigger a native print dialog
