

TestNG: Unable to run tests in Eclipse using Firefox 43

When user tries to run TestNG script via Eclipse, receives the below error message:

org.openqa.selenium.firefox.NotConnectedException: Unable to connect to host 127.0.0.1 on port 7055 after 45000 ms. Firefox console output:

If you are using Firefox 43 you should downgrade the version to 41 and try running the test and it should work fine.
