How to get DPL data in the service suite?

The below code iterates on the columns and fetches the DPL data we want to use in the script.

```
setVariablesIfNeeded('test.csv','HashDPL',0,'en_US');var Length = 5;for (j=1; j<=Length; j++)
{  var val = eval("$Test"+j);  log(val);}
```

Example Code

test.csv
