

How to get hidden elements from DOM?

Steps:

1. Open the application in the chrome browser
2. Inspect the element
3. Go to the console tab
4. Paste this code : `javascript:(function(){var newScript = document.createElement('script'); newScript.type = 'text/javascript; newScript.src = ' //ajax.googleapis.com/ajax/libs/jquery/1.11.0/jquery.min.js; document.getElementsByTagName("head")[0].appendChild(newScript);})(); setTimeout(function(){ console.log($('#ELEMENT_Attribute').html());},18000);`
5. Mouse over on the element and wait
