

How to retrieve the only number from a string?

Suppose there is a pop-up like below which has a combination of text and Numbers and if we want to retrieve only Numbers

Then we can use the below code to fetch only Numbers

Store the content into a variable and apply to `replace(/[^\d-9]/g, '')` to the string and it will fetch only Numbers present in the string

Code Snippet

Click	<code>div("Confirmation")</code>	
Store	<code>JobID</code>	<code>getText(label(["Process"]),_near(div("C...</code>
Store	<code>JobNumber</code>	<code>JobID.replace(/[^\d-9]/g, '')</code>
Log	<code>JobNumber</code>	
Click	<code>button("OK")</code>	

Logs from DS3

```
Step 11.*
  click(div("Confirmation"))
Next Step Ready time 93 ms.
Step 12.*
*Storing getText(label(["Process"]),_near(div("C...)) in JobID*
Step 13.*
*Storing JobID.replace(/[^\d-9]/g, '') in JobNumber*
Step 14.*
log("88530")
```
