

How to stop the Sahi logging feature in Appvance IQ.

While I am running sahi/designer based vusers in Appvance IQ, sahi logs are taking up lot of disk space (sometimes 100 GB in 3 to 4 days).

How can we disable the traffic logs that are written to this folder?

/AIQ/sahi/userdata/logs/traffic

Solution:

Kill all java process, Start sahi dashboard alone in the below given path.

Please try disabling the traffic logs by launching sahi dashboard(/AIQ/sahi/userdata/bin/start_dashboard.bat).

Restart Appvance IQ.

Name	Date modified	Type	Size
playback	12-09-2015 22:53	File folder	
traffic	14-09-2015 09:48	File folder
