How to trim a string value from a string?

For example: Need only " 14393430" from the string "Cart saved as Quote : 14393430" use the below function:

var quote = "Cart saved as Quote : 14393430"

var quotenum=quote.substring(quote.indexOf(':') + 1)

No		Action	Accessor	Value
1		Store	quote	"Cart saved as Quote :14393430"
2		Log	quote	
3		Store	quotenum	quote.substring(quote.indexOf(':') + 1)
4		Log	quotenum	

Logs | Data | Checkpoint | Relational Accessors

```
*Storing "Cart saved as Quote :14393430" in quote*
   store(""Cart saved as Quote :14393430"")
Step 2:*
   log("Cart saved as Quote :14393430")
Step 3:*
*Storing quote.substring(quote.indexOf(':') + 1) in quotenum*
   store("quote.substring(quote.indexOf(':') + 1)")
Step 4:*
   log("14393430")

Playback Completed Successfully.
```
