Release 5.2.2

This page is retained as a historical AIQ 5.2.2 release note. Keep the release-specific information stable while using current documentation conventions for headings, links, and terminology.

Review guidance

- Preserve the original release scope and avoid adding unverified product changes.
- Clarify outdated names only when they help readers map older content to current AIQ terms.
- Review upgrade notes, fixed-issue references, and related links for accuracy.
- Flag content that should move to a consolidated release-note index if duplicate pages exist.

Validation checklist

1. Confirm the release number is correct.
2. Check related release-note links and upgrade references.
3. Confirm the article uses the final updated date and no duplicate title.
