

Release 5.2.5

Release 5.2.5

This page is retained as a historical AIQ 5.2.5 release note. Keep release-specific information stable and avoid adding fixes, features, or behavior changes that are not documented for this release.

Review guidance

- Preserve original release context and release-family relationships.
- Clarify outdated terminology only when it helps readers map content to current AIQ areas.
- Verify upgrade, installer, compatibility, and related-release links.
- Flag duplicated release-note content for possible consolidation into the release-note index.

Validation checklist

1. Confirm the release number and page location.
2. Review related links and upgrade references.
3. Confirm the page uses the final updated date and no stale review banner.
